

## Spiritual Formation

Spiritual Formation is the process of helping church, business and community leaders develop a growing relationship with God. Using seminars, small group retreats, discipleship groups and various discussion groups, everyday life is transformed into the exciting life of bringing glory to God in everything we do. Both of us feel called by God to teach life altering principles.

## ACM International's Ministry in Congo

ACM began work in the Belgian Congo in 1948. Since then the country has changed names to Zaire and now again to the Democratic Republic of Congo. We work with approximately 450 congregations. The general figures for Congo say more than 80% of the people are Christian. This may be true in that it is rare to find an African who does not believe in a creator God. Yet over the years Satan has successfully placed these people under extreme bondage. DR Congo is one of the poorest countries in the world. Yet it is one of the richest countries in terms of natural resources. **It is our desire to provide a spiritual platform of obedient faith which will open the door for God to make some amazing changes in every level of life.**

Please partner with us in prayer and financial support to see 2 Chronicles 7:14 be fulfilled for Congo.

*"If my people who are called by my name will humble themselves and pray and seek my face and turn from their wicked ways, then I will hear from heaven and will forgive their sins and heal their land."*

## Sharing a Vision

## Simple Vision

---

We believe God is preparing to bring major changes to Congo. We also believe He is directing us to be part of those changes. And since we obviously cannot see the future, we must totally rely on God's leading day by day.

**First, above everything else, we are to make sure that in every aspect of our work, we provide "Spiritual Formation" training.**

For us it is enough right now to say, we believe God wants us to return to Congo. We trust wholeheartedly in His grace to do whatever He has planned.

## Simple Mission

---

So, we are in the process of making plans to return to Congo in April 2009. In order to reach that goal we have several challenges to meet. Below is a list of the major things we are trying to accomplish in order to prepare for this transition.

1. Raising Work Funds as required by the ACM Board of Trustees.

*Our budget for Living Link and Work Funds is about \$6500 per month. We currently have \$4200 coming in regularly.*

2. Raise awareness and funding for Tracy's Heart—A Ministry to Rape Victims.

*This ministry will help these abused women in accordance with the funds available. (See Tracy's Heart brochure for more information.)*

3. Developing a base for establishing small to medium business opportunities.

*Reestablishing the printing press*

*Setting up a saw mill.*

*Micro-business opportunities for individuals.*

*Small and medium size businesses for the church to expand its ministry.*

## Simply God

---

The vision and mission are not complicated to understand. But bringing it all about is much more than we can accomplish ourselves. If the Vision and Mission are from God, then of course the results are His as well. We are committed to doing whatever we can to see each of these areas accomplished and we are trusting God to provide wisdom, resources and the right people to help us through each step.
